

*Transforming Energy. Transforming Business.™*

**We the undersigned co-owners, candidates, and employees of Namasté Solar join in the global youth climate movement as they sound the alarm for our planet.**

**We believe in the power of collective action and that each one of us has the ability to create positive change. We believe solar energy is a better way to power our future and that business can be a force for good in our communities and the world. We are committed to action that will help secure a future that is environmentally and economically sustainable for all people.**

**Together we can transform energy and transform business.**

**Join in and amplify the #ClimateStrike to be part of this united movement. The climate is changing, and we need positive change in response.**
